Stay Connected:

Good afternoon chiefs,

CPCA's Legislative Team is asking you to take a short survey on whether or not your agency or city utilizes biometric surveillance systems. The reason for this survey is AB 1215 (Ting) which would prohibit the use of biometric surveillance systems in connection with body worn cameras. The bill defines biometric surveillance system as "any computer software or application that performs facial recognition or other biometric surveillance." The Legislative Team is asking you to take a quick four question survey so they may get a better understanding of how many agencies utilize biometric surveillance and how they are being applied. Furthermore, they are asking for examples of when biometric surveillance systems have helped you identify and apprehend persons of interest. Posted below is the link to the survey. Should you have any questions or concerns please reach out to our Legislative Coordinator, Jonathan Muñoz, at jmunoz@californiapolicechiefs.org.

Thank you.
